Item 16: Proposal regarding reduction of the share capital

The board of directors of the Company proposes that the annual general meeting resolves to reduce the share capital. The reason for the proposal is that the Company has purchased own shares on Nasdaq Stockholm and reclaimed clawback shares relating to earnout payments and on 20 August 2026 holds 9,046,406 B shares in total. The board proposes that the shares held by the Company are redeemed in accordance with the below.

1. The Company's share capital shall be reduced by SEK 75,386.73916763220 to SEK 1,831,723.2217213700 without repayment to the shareholders, through redemption of 9,046,406 B shares. The purpose of the reduction is allocation to unrestricted equity.

2. Resolution in accordance with this exhibit regarding reduction of the share capital through redemption of shares does not require permission from the Swedish Companies Registration Office or the general court because the company simultaneously takes action which means that neither the Company's restricted equity nor its share capital is reduced through the bonus issue in accordance with item 17.

3. The board of directors or anyone appointed by the board of directors is given the right to make the adjustments necessary in connection with the registration of the resolution at the Companies Registration Office and Euroclear Sweden AB.

A resolution in accordance with this exhibit is valid only where supported by shareholders holding not less than two-thirds of both the shares voted and of the shares represented at the general meeting.

A resolution in accordance with this item is conditional upon that the annual general meeting resolves to amend the articles of association in accordance with item 15 and carry out the bonus issue in accordance with item 17.

Enclosed to the proposal is the board's report in accordance with Ch. 20 § 13 of the Swedish Companies Act, Exhibit 16a, and the auditor's statement regarding the board's report, Exhibit 16b.
